Connect BSN to your Studielink account in order to log in with DigiD

Did you move to the Netherlands and did you register with the municipality? Don’t forget to change your address in your Studielink account as well. By changing your address your citizen service number (BSN) will be connected to your account which makes it able to log in with DigiD.

Citizen service number (BSN)
The citizen service number (BSN) is a unique personal number allocated to everyone registered in the Personal Records Database (BRP). Everyone who registers with the BRP is automatically given a BSN.

What are the benefits for me to change my address in Studielink?

✓ When your BSN is connected to your account you will be able to log in via DigiD and the DigiD app. This is easier and safer to log in.
✓ The personal information in your account will be automatically updated. You and your educational institution do not need to make any manual adjustments anymore.
✓ Moving out of the Netherlands? Don’t forget to deregister with the Dutch municipality.

Follow these 4 steps to change your address

If you want to start logging in with DigiD, you need to change your current Studielink account to activate this option.

Step 1: Log in into your Studielink account without DigiD. Fill in your e-mail address and password.
**Step 2:** Go to your personal details with the tab 'Details'. Here you can change your Address details. Change your home address into your new Dutch home address. Save your details.

**Step 3:** When you have saved the Address details, the system will check if there is a BSN available to connect with your account. After a moment you will receive a pop up message in your account saying: ‘Our data shows that you can also log in to Studielink using DigiD.’

**Step 4:** Log out from your Studielink account. You are now able to log in with DigiD.
